

ALUMINIUM WIRE

ER4043 a good corrosion resistance and versatility aluminium wire. Suitable for TIG welding. Not for high magnesium alloy welding. 5% silicon alloy rod.

Part No	Description	Package
404324	Aluminium Wire	2.4 mm x 5 kg
404324-1K	Aluminium Wire	2.4 mm x 1 kg
404332	Aluminium Wire	3.2 mm x 5 kg
404332-1K	Aluminium Wire	3.2 mm x 1 kg

Part No	Description	Package
535624	Aluminium Wire	2.4 mm x 5 kg
535624-1K	Aluminium Wire	2.4 mm x 1 kg
535632	Aluminium Wire	3.2 mm x 5 kg
535632-1K	Aluminium Wire	3.2 mm x 1 kg

ER5356 a good general purpose wire, 5% Magnesium suitable for a wide range of cast and wrought aluminium alloys with higher shear strength than 4043.
