

EWG TUNGSTEN ELECTRODES

- Longer life
- Non-radioactive additives
- Stable tip and arc geometry
- Proven to outperform other electrodes
- Can be used in both DC & AC processes
- Best choice to replace thoriated electrodes

Specifications:

- AWS Class: EWG
- AWS Spec: A5.12M/A5.12:2009
- 150 mm lengths in three industry-standard diameters: 1.6 mm, 2.4 mm, 3.2 mm
- Colour code: Purple

Part Number	Description
16E3	EWG Tungsten 1.6 mm
24E3	EWG Tungsten 2.4 mm
32E3	EWG Tungsten 3.2 mm
