

SCRAPPER TIPS

Made in U.S.A

See the difference yourself with Flame Tech's famous "SCRAPPER" Cutting Tips

- Larger preheats reduce start time and help to "maintain the cut".
- Coarse "V" internal splines do not clog easily and can be cleaned with a pocket knife.
- Ideal for working on rusty, scaly, painted surfaces.
- Compatible with standard OEM torches.

C-Scrap Flame Tech Scrapper Tips

Thick Shell Flange

Shell machined from solid copper stock. Last up to 3 times longer

Coarse splines are easy to clean with a pocket knife.

Thick "Bull Barrel" shell
