

EASYkleen

All Machine Weld Cleaning Solution

MADE IN
AUSTRALIA

The All Machine Weld Cleaning Solution is a water based, non dangerous goods fluid used for electropolishing and weld cleaning machines. Economical and fast in removing weld scale whilst being able to match any finish from 2B through to mirror.

With the phosphoric acid your cleaning speed will be kept high. All Machine Weld Cleaning Solution is the most affordable solution on the market that will give you a true polished finish, unlike most non dangerous goods solutions on the market.
