

ARCFORCE

BETTER QUALITY THE POWER TO WELD BETTER WELD

Welding Carriages

Automatic Welding Carriage

Designed for horizontal fillet welding. Easy setup, no track/rail required due to strong permanent magnet small, light and easy to carry limit stop switches on both sides adjustable torch holder included. Increase productivity Increase quality

AFWC

Double Fillet Welding Carriage

Designed for dual horizontal fillet welding. Easy setup, no track/rail required due to strong permanent magnet small, light and easy to carry limit stop switches on both sides adjustable torch holder included. Increase productivity & quality. Stitch or continuous welding options.

AFIWWC2T

Pipe Welding Carriage and Flexible Track Tank

Mechanised pipe & tank welding carriage system, produce higher deposition rates, achieve excellent weld quality, reduce costs, improve productivity. LED display travel speed & oscillation.

AFED100BP
AFED100BPT Magnetic Track 1.8m

AFWCM

Automatic Mini Welding Carriage

Designed for horizontal fillet welding. Easy setup, no track/rail required due to strong permanent magnet small, light and easy to carry limit stop switches on both sides adjustable torch holder included. Increase productivity, Increase quality.

Automatic Welding Carriage

Designed for horizontal fillet welding. Easy setup, no track/rail required due to strong permanent magnet small, light and easy to carry limit stop switches on both sides adjustable torch holder included. Increase productivity & quality Stitch or continuous welding options

AFWCVC

Ridge Track Welding Carriage

Mechanised welding carriage system, suitable for butt, fillet & lap welds produce higher deposition rates, achieve excellent weld quality, reduce costs & improve productivity. LED display travel speed.
