

# EZ TAPE

**EZ Tape is a traditional, fully coated aluminium tape that can be used to seal root gaps by controlling the release of gas during purging and to seal pipe ends for transporting.**

Fully coated  
with  
Adhesive

- EZ Tape can act as a purge gas retaining tape, seal pipe ends for transporting, or a vapor barrier for HVAC applications.
- This “All purpose solution” can be used in numerous industries.
- The adaptive nature of EZ Tape enables the aluminium foil to adhere and conform to irregular surfaces including stainless steel and aluminium pipes.
- Pressure sensitive adhesive makes for easy application.
- Adhesive portion withstands temperatures up to 260°C.
- Aluminium foil portion of tape withstands temperatures up to 593°C.

| Part Number | Description                         |
|-------------|-------------------------------------|
| EZ-T2.0     | Fully Coated Aluminium 51 mm x 23 m |
