

SAFETY SPECTACLES & GOGGLES

IW86IO

IW86S

Wrap-around protective eye wear combining fashion, fit and function. Features soft nose bridge for comfort, an adjustable temple length enables wearers to fit the eye wear to their facial profile. Lightweight, frameless design ensures a comfortable and custom fit all day long.

Ergonomic and versatile, the wrap around foam is made of long life span material. Strong polycarbonate frame and temple. Two way changeable templefitting allows use of elastic band (goggle style) or arms for standard glasses wear.

IW11S

- Overwhelming goggle complying military standard
- Ballistic-impact resistant with lens thickness 2.8 MM.
- Extra wide elastic headband thwarts slippery while worn.
- Available in Anti-fog clear and Anti-fog smoke lens.

IWG01C

IWG01S

Duo lenses consisting of outer polycarbonate lens and inner acetate lens to protect against chemical splashes. Wide vision goggle ensures 180° panorama view, with a light weight and non-vented PVC frame.

IW08PAC

- Dielectric construction
- Excellent attenuation
- Padded headband
- Adjustable to fit all sizes
- SNR 25dB
