

## CO<sup>2</sup> HEATER

### THE MOST ECONOMICAL THERMOSTATIC CONTROLLED CO<sup>2</sup> HEATER

- 120V AC 50/60hz 100 Watt
- 240V AC 50/60hz 100 Watt
- Designed to prevent CO<sup>2</sup> regulator freeze up.
- Extends life of the regular/flowmeter and prevents porosity in welds from loss of shield gas in frozen regulator.
- Easily installed between CO<sup>2</sup> cylinder valve and flowmeter.
- CO<sup>2</sup> flat seat & nut
- Will heat up to 90 cubic feet per hour

Part No	Description
CO2-A120V	120V CO <sup>2</sup> Heater
CO2-A240V	240V CO <sup>2</sup> Heater
